

# Github (UI version) – Pushing Files to Github

Click on the Readme to include a Read me file in the repository

### Quick setup — if you've done this kind of thing before

 Set up in Desktop or **HTTPS** **SSH** `https://github.com/ArjunAIML/AIMLDelhiBatch.git` 

Get started by [creating a new file](#) or [uploading an existing file](#). We recommend every repository include a **README**, **LICENSE**, and `.gitignore`.

### ...or create a new repository on the command line

```
echo "# AIMLDelhiBatch" >> README.md
git init
git add README.md
git commit -m "first commit"
git remote add origin https://github.com/ArjunAIML/AIMLDelhiBatch.git
git push -u origin master
```

### ...or push an existing repository from the command line

```
git remote add origin https://github.com/ArjunAIML/AIMLDelhiBatch.git
git push -u origin master
```

Scroll down to the end and click on commit new file

The image shows a 'Commit new file' dialog box. It has a title bar with a folder icon and the text 'Commit new file'. Below the title bar, there are two text input fields. The first field contains the text 'Readme' and the second field contains the text 'Deas'. At the bottom of the dialog box, there are two buttons: a green button labeled 'Commit new file' and a grey button labeled 'Cancel'. A red dashed rectangle highlights the 'Commit new file' button, and a blue arrow points to it from the bottom right.

Commit new file

Commit new file Cancel

Once you are done with the above steps, the screen should look like this.

A screenshot of a GitHub repository page for "ArjunAIML / AIMLDelhiBatch". The repository has 0 watches, 0 stars, and 0 forks. The "Code" tab is selected, showing a "No description, website, or topics provided." message with an "Edit" button. Below this, it shows "1 commit", "1 branch", "0 releases", and "1 contributor". There are buttons for "Branch: master", "New pull request", "Create new file", "Upload files", "Find File", and a green "Clone or download" button. A file named "README.md" is listed, with the latest commit "1e7aa18" from "now". The file content is displayed in a large text area, showing the title "AIMLDelhiBatchA" in a large, bold, black font, followed by a horizontal line.

# AIMLDelhiBatchA

1. Drag and drop the file which you want to upload into the repository.
2. In this case, drag and drop the dummy\_notebook into the repository

AIMLDelhiBatch /

Drag additional files here to add them to your repository

Or [choose your files](#)

 Dummy\_Notebook.ipynb

**Commit changes**

Add files via upload

Add an optional extended description...

Scroll down and click on commit changes

Dummy\_Notebook.ipynb ×

### Commit changes

Add files via upload

Add an optional extended description...

☒ Commit directly to the `master` branch.

☐ Create a new branch for this commit and start a pull request. [Learn more about pull requests.](#)

**Commit changes** Cancel

After all the above steps, you should see the notebook uploaded to the repository

A screenshot of a GitHub repository page for "ArjunAIML / AIMLDelhiBatch". The repository has 0 stars, 0 forks, and 0 watches. It shows 2 commits, 1 branch, 0 releases, and 1 contributor. The "Code" tab is selected. Below the repository header, there is a section for "Add files via upload" with a list of files: "Dummy\_Notebook.ipynb" (uploaded "now") and "README.md" (uploaded "28 minutes ago"). The "Dummy\_Notebook.ipynb" file is highlighted with a red dashed box. Below the file list, the "README.md" file is shown with its content: "AIMLDelhiBatchA".
